11q Aberration in NHL

Alternative Name

11q Gain / Loss

Methodology

FISH

Test Description

Probes: CEN 11 (11p11.1-q11) | MLL (11q23) | 11qTel (11q25)

Disease(s): B-cell non-Hodgkin lymphoma

Clinical Significance

This FISH panel detects proximal gains and distal losses of chromosome 11q which are recurrent abnormalities in MYC-negative high grade B-cell lymphomas resembling Burkitt lymphoma. "Burkitt-like lymphoma with 11q aberration" was recognized by the WHO in 2017 as a new provisional entity. This pattern of 11q abnormalities is also observed in MYC-positive Burkitt lymphomas and MYC-positive high-grade B-cell lymphomas, not otherwise specified.

Specimen Requirements

- **Bone Marrow Aspirate:** N/A
- **Peripheral Blood:** N/A
- **Fresh, Unfixed Tissue:** N/A
- **Fluids:** N/A
- **Paraffin Block:** H&E slide (required) plus paraffin block. Circle H&E for tech-only.
- **Cut Slides:** H&E slide (required) plus 2 unstained slides cut at 4 microns. Circle H&E for tech-only.

Storage & Transportation

Refrigerate specimen. Do not freeze. Use cold pack for transport, making sure cold pack is not in direct contact with specimen.

CPT Code(s)*

88374x1 automated or 88377x1 manual

New York Approved

Yes

Level of Service

Global, Technical

Turnaround Time

3-5 days

NeoGenomics Laboratories is a specialized oncology reference laboratory providing the latest technologies, testing partnership opportunities, and interactive education to the oncology and pathology communities. We offer the complete spectrum of diagnostic services in molecular testing, FISH, cytogenetics, flow cytometry, and immunohistochemistry through our nation-wide network of CAP-accredited, CLIA-certified laboratories.

Committed to research as the means to improve patient care, we provide Pharma Services for pharmaceutical companies, in vitro diagnostic manufacturers, and academic scientist-clinicians. We promote joint publications with our client physicians. NeoGenomics welcomes your inquiries for collaborations. Please contact us for more information.
